Subject:	Proposal for a Regulation of the European Parliament and of the Council on streamlining measures for advancing the realisation of the trans-European transport network - Four-column document

In view of the Intermodal Transport Working Party on 8 January 2020, delegations will find attached the first draft of the four-column document on the above proposal. The suggested Council position is based on the General Approach (doc. 14401/19).

The fourth column suggests a preliminary classification of issues into two categories of political importance, as evaluated by the Presidency:

- "B" is a technical issue that can be resolved in the technical meetings; and
- "C" is a major policy question.

Delegations are invited to examine the amendments of the European Parliament and indicate, where possible, their flexibility.
