Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
amending certain legislative acts in the domain of agricultural and fishery statistics

(Text with EEA relevance)

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

The Treaty on the Functioning of the European Union (TFEU) makes a distinction between (a) the powers delegated to the Commission to adopt non-legislative acts of general application to supplement or amend certain non-essential elements of the legislative act as laid down in Article 290(1) of the TFEU (delegated acts), and (b) the powers conferred upon the Commission to adopt uniform conditions for implementing legally binding Union acts as laid down in Article 291(2) of the TFEU (implementing acts).

The Commission has committed itself¹, with regard to Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers², to reviewing legislative acts which currently contain references to the regulatory procedure with scrutiny in the light of the criteria laid down in the Treaty.

The overall objective is by the end of Parliament's seventh term (June 2014), to remove all provisions referring to the regulatory procedure with scrutiny from all legislative instruments.

The aim of this proposal is to modify nine legislative acts in the domain of agricultural and fishery statistics in order to align them with the new institutional context.

For the sake of completeness, the list of instruments to be aligned is:

- (1) Council Directive 96/16/EC of 19 March 1996 on statistical surveys of milk and milk products³;
- (2) Regulation (EC) No 138/2004 of the European Parliament and of the Council of 5 December 2003 on the economic accounts for agriculture in the Community⁴;
- (3) Regulation (EC) No 1921/2006 of the European Parliament and of the Council of 18 December 2006 on the submission of statistical data on landings of fishery products in Member States and repealing Council Regulation (EEC) No 1382/91⁵;
- (4) Regulation (EC) No 762/2008 of the European Parliament and of the Council of 9 July 2008 on the submission by Member States of statistics on aquaculture and repealing Council Regulation (EC) No 788/96⁶;
- (5) Regulation (EC) No 1165/2008 of the European Parliament and of the Council of 19 November 2008 concerning livestock and meat statistics and repealing Council Directives 93/23/EEC, 93/24/EEC and 93/25/EEC⁷;

3. LEGAL ELEMENTS OF THE PROPOSAL

- **Summary of the proposed action**

The objective of this proposal is to modify nine legislative acts in the domain of agricultural and fishery statistics in order to align them to the new institutional context.

In particular, the aim is to identify what powers the Commission has and establish the appropriate procedure for adopting measures on the basis of these powers.

- **Streamlining of the European Statistical System**

Regulation (EC) No 223/2009 of the European Parliament and of the Council of 11 March 2009 on European statistics¹² defined the European Statistical System (ESS) as a partnership between the European statistical authority, which is the Commission (Eurostat), and the national statistical institutes (NSIs) and other national authorities responsible in each Member States for the development, production and dissemination of European statistics.

The European Statistical System Committee (ESSC), established by Article 7 of Regulation (EC) No 223/2009, is regarded as the umbrella committee within the ESS. It assists the Commission in exercising of its implementing powers in certain statistical domains. These

exclude agricultural and fishery statistics where the Commission is assisted by the Standing Committee for Agricultural Statistics (SCAS)¹³.

The Commission is proposing a new ESS structure aimed at improving coordination and partnership in a clear pyramid structure within the ESS, with the ESSC as highest strategic body. One aspect of this streamlining is to concentrate comitology powers in the hands of the ESSC. In February 2012¹⁴, the ESSC supported this new approach.

The suggestion is therefore to modify the nine legislative acts in order to replace the reference to the SCAS by a reference to the ESSC.

- **Legal basis**

Article 338 (1) of the Treaty on the Functioning of the European Union.

- **Choice of instrument**

Regulation of the European Parliament and of the Council.

The proposal has no implications for the EU budget.

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 338(1) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national Parliaments,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (2) The Commission has committed itself¹⁵, with regard to Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers¹⁶, to reviewing legislative acts which currently contain references to the regulatory procedure with scrutiny in the light of the criteria laid down in the Treaty.
- (3) The Commission should have the power to adopt delegated acts under Article 290 of the TFEU in order to supplement or amend certain non-essential elements of the legislative acts, notably to take account of economic, social and technical developments. The Commission should ensure that these delegated acts do not impose a significant additional administrative burden on the Member States or on the respondent units.
- (4) Legislative acts in the field of agricultural and fishery statistics, referred to in recitals 5-13, contain references to the regulatory procedure with scrutiny and should therefore be reviewed in the light of the criteria laid down in the Treaty.

- (6) As regards Regulation (EC) No 138/2004 of the European Parliament and of the Council of 5 December 2003 on the economic accounts for agriculture in the Community¹⁸, in order to take account of economic, social and technical developments, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of updating of Annexes I and II to that Regulation.
- (7) As regards Regulation (EC) No 1921/2006 of the European Parliament and of the Council of 18 December 2006 on the submission of statistical data on landings of fishery products in Member States and repealing Council Regulation (EEC) No 1382/91¹⁹, in order to take account of technical developments, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of technical adaptation of the Annexes to that Regulation.
- (8) As regards Regulation (EC) No 762/2008 of the European Parliament and of the Council of 9 July 2008 on the submission by Member States of statistics on aquaculture and repealing Council Regulation (EC) No 788/96²⁰, in order to take account of technical developments, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of technical changes to the Annexes to that Regulation.
- (9) As regards Regulation (EC) No 1165/2008 of the European Parliament and of the Council of 19 November 2008 concerning livestock and meat statistics and repealing Council Directives 93/23/EEC, 93/24/EEC and 93/25/EEC²¹, in order to take account of technical developments, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of modifications of Annexes I, II, IV and V to that Regulation.

²¹ OJ L 321, 1.12.2008, p. 1.

²² OJ L 87, 31.3.2009, p. 1.

- (11) As regards Regulation (EC) No 217/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of catch and activity statistics by Member States fishing in the north-west Atlantic²³, in order to take account of technical progress and international requirements, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of amendments to the lists of species and statistical fishing regions and the descriptions of those regions, as well as the measures, codes and definitions applied to fishing activity, fishing gear, vessel sizes and methods of fishing.
- (12) As regards Regulation (EC) No 218/2009 of the European Parliament and of the Council of 11 March 2009 on the submission of nominal catch statistics by Member States fishing in the north-east Atlantic²⁴, in order to take account of technical progress and international requirements, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of amendments to the lists of species and statistical fishing regions, the descriptions of those fishing regions and the permitted degree of aggregation of data.
- (13) As regards Regulation (EC) No 543/2009 of the European Parliament and of the Council of 18 June 2009 concerning crop statistics and repealing Council Regulations (EEC) No 837/90 and (EEC) No 959/93²⁵, in order to take account of economic and technical developments, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of adaptation of the transmission tables as set out in the Annex.
- (14) It is particularly important for the Commission to carry out appropriate consultations during its preparatory work, including at expert level. When preparing and drawing-up delegated acts, the Commission should ensure the simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.
- (15) The Standing Committee for Agricultural Statistics (SCAS) set up by Council Decision 72/279/EEC of 31 July 1972²⁶ provides advice to and assists the Commission in exercising of its implementing powers under the legislative acts referred to in recitals 5-13.
- (16) Under the strategy for a new European Statistical System (ESS) structure, aimed at improving coordination and partnership in a clear pyramid structure within the ESS, the European Statistical System Committee (ESSC), established by Regulation (EC) No 223/2009 of the European Parliament and of the Council of 11 March 2009 on European statistics²⁷, should have an advisory role and assist the Commission in the exercising its implementing powers.

²⁶ OJ L 179, 7.8.1972, p.1.

²⁷ JO L 87, 31.3.2009, p.164.

- (17) To that effect, the legislative acts referred to in recitals 5-13 should be modified, with the reference to the SCAS being replaced by a reference to the ESSC.
- (18) In accordance with the principle of proportionality, it is necessary and appropriate for the achievement of the basic objective of the alignment of the powers conferred upon the Commission to Articles 290 and 291 of the TFEU to lay down rules on such alignment in the domain of agricultural and fishery statistics. This Regulation does not go beyond what is necessary in order to achieve that objective, in accordance with Article 5(4) of the Treaty on the European Union.
- (19) In order to ensure legal certainty, it is necessary that the procedures for the adoption of measures which have been initiated but not completed before the entry into force of this Regulation are not affected by this Regulation.
- (20) Since the amendments made to Council Directive 96/16/EC concern committee procedure only, that Directive does not need to be transposed by Member States,
