Proposal for a

COUNCIL DECISION

on the conclusion of the Arrangement between the European Community and the Republic of Iceland, the Principality of Liechtenstein, the Kingdom of Norway and the Swiss Confederation on the participation by those States in the work of the committees which assist the European Commission in the exercise of its executive powers as regards the implementation, application and development of the Schengen *acquis*

EXPLANATORY MEMORANDUM

1. POLITICAL AND LEGAL BACKGROUND

On 18 May 1999, the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concluded an Agreement concerning those states' association with the implementation, application and development of the Schengen *acquis*¹.

On 26 October 2004, the European Union, the European Community and the Swiss Confederation signed the Agreement concerning the Swiss Confederation's association with the implementation, application and development of the Schengen *acquis*. On 1 March 2008 the Agreement entered into force².

On 21 June 2006, a Protocol between the Council of the European Union, the European Community, the Swiss Confederation and the Principality of Liechtenstein on the accession of the Principality of Liechtenstein to the Agreement concluded by the Council of the European Union, the European Community and the Swiss Confederation on the Swiss Confederation's association with the implementation, application and development of the Schengen *acquis* was initialled, hereinafter referred to as the "Association Protocol". The Protocol was signed on 28 February 2008.

The Association Agreements set up a Mixed Committee consisting of representatives of the governments of the Associated States as well as of the Council of the European Union and the Commission of the European Communities.

Consequently, the representatives of the Associated States attend Mixed Committees which meet in form of Council working groups enlarged by the representatives of the Associated States. At Coreper or Council level these are chaired alternately for six-month periods by the representatives of the European Union and by the representative of the Government of the Associated State.

The participation in the Mixed Committee gives the Associated States the opportunity, in good time, to voice any concerns regarding developments of the Schengen *acquis*, which must be adopted by all the Associated States, and the implementation of this *acquis*. After discussion in the Mixed Committee, the measures taken to develop the Schengen *acquis* are adopted by the Council and by the European Parliament through the appropriate decision-taking procedure laid down in the Treaties. Thus, the Associated States participate in decision-shaping but not in decision-taking.

This *sui generis* association with the Schengen *acquis* lead the Council to conclude agreements in the form of an exchange of letters concerning the Committees which assist the Commission in the exercise of its executive powers as regards the implementation, application and development of the Schengen *acquis*, hereinafter referred to as the "Schengen Comitology committees".

The agreement with Norway and Iceland points out the need to associate them with the work

¹ OJ L 176, 10.7.1999, p.36.

² OJ L 53, 27.2.2008, p. 52.

of these committees in order to ensure that these countries are involved in the decision-making process in the field covered by the Association Agreements. The European Community committed itself to negotiate appropriate arrangements for the association of these countries with the work of the Schengen Comitology committees as the need arises.

As far as the Swiss Confederation is concerned, a relevant Declaration of the Commission, as well as an agreement in the form of an exchange of letters between the Council and the Swiss Confederation provide for an explicit commitment by the European Community to negotiate appropriate arrangement for the association of Switzerland with the work of the Schengen Comitology committees.

As regards the Principality Liechtenstein, a relevant Declaration attached to the Association Protocol provides for the participation of Liechtenstein in the Schengen Comitology committees.

Until the Arrangement covered by this document is concluded, the Associated States participate in the work of the Schengen Comitology committees as observers through the above mentioned *ad hoc* exchange of letters.

Although there are two basic Schengen Association agreements, a single Arrangement should be concluded concerning the participation by the Associated States in the work of the Schengen Comitology committees to ensure consistency between and equal treatment of all Associated States.

For efficiency, and to avoid the need to conduct separate negotiations, Liechtenstein has been associated with the negotiations on its participation in the Schengen Comitology committees before conclusion of the Association Protocol is completed. The Arrangement on the participation in the work of the Schengen Comitology committees will not apply to Liechtenstein until the date when the Association Protocol has entered into force.

The authorisation to negotiate an arrangement was given to the Commission on 15 May 2006; however the negotiations were launched with all Associated States only on 17 October 2008 since Norway only got its mandate for negotiations in 2008 and Switzerland requested to wait for the entry into force of its Association Agreement before starting the negotiations. The negotiations were finalised on 30 June 2009 and the draft Arrangement was initialled.

The Member States have been informed and consulted in the Frontiers Working Party and the Working Party on the European Free Trade Association (EFTA) within the Council.

The legal basis for the Arrangement is Article 62, point 3 of the first subparagraph of Article 63, Article 66 and the third indent of Article 202, in conjunction with Article 300(2) and (3) of the EC Treaty.

2. OUTCOME OF THE NEGOTIATIONS

The Commission considers that the objectives set by the Council in its negotiating directives have been attained and that the draft arrangement between the European Community and the Republic of Iceland, the Principality of Liechtenstein, the Kingdom of Norway and the Swiss Confederation on the participation by those States in the work of the committees which assist the European Commission in the exercise of its executive powers as regards the

implementation, application and development of the Schengen *acquis* is acceptable to the Community.

The final content of the draft Arrangement can be summarised as follows:

Purpose and scope

The Arrangement provides that the Associated States will be associated as observers with the work of the current and future Comitology committees assisting the Commission in Schengen matters. The list of the Schengen Comitology committees will be regularly updated by the Commission and will be published in the Official Journal.

Consequently, the Arrangement establishes clear rights and obligations to ensure effective participation by the Associated States in the Schengen Comitology committees. It foresees that the representatives of the Associated States shall receive all relevant meeting documents when the meeting of the committee is convened, they may comment on a proposed measure constituting a development of the Schengen *acquis* or voice any problems encountered in applying these measures; however, the representatives from these States will not take part in the voting of these committees and shall withdraw when the Committee moves to a vote.

In accordance with the Arrangement, the Commission will communicate to the Associated States the acts and measures constituting a development of the Schengen *acquis*.

The Arrangement provides that the Associated States will decide independently regarding the implementation of all measures adopted by the Schengen Comitology committee procedures concerning the application and development of the Schengen *acquis* confirming the rules set out in the basic Association Agreements.

The Arrangement also lays down a financial contribution from the Associated States to the administrative expenses resulting from their participation in the Schengen Comitology committees. The travelling costs of the representatives who will participate in the meetings of these committees will not be reimbursed.

It should be emphasised that the participation of the Republic of Iceland, the Kingdom of Norway and the Principality of Liechtenstein in the Committee which assists the Commission in the exercise of its executive powers established by Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on free movement of such data³ is laid down in the Agreement on the European Economic Area, while the participation of the Swiss Confederation in this Committee is laid down in the exchange of letters annexed to the Association Agreement with Switzerland.

The special situations of Denmark, the United Kingdom and Ireland are reflected in the preamble.

Declaration

The Joint declaration on the specific association of the Republic of Iceland, the Principality of Liechtenstein, the Kingdom of Norway and the Swiss Confederation with the implementation,

³ OJ L 281, 23.11.1995, p.31

application and development of the Schengen *acquis* underlines that it shall not be regarded as a legal or political precedent for any other field of cooperation between the European Community and those countries.

3. CONCLUSIONS

In the light of the above-mentioned results, the Commission proposes that the Council:

- decide that the Arrangement be signed on behalf of the Community and authorise the President of the Council to appoint the person(s) duly empowered to sign on behalf of the Community;
- approve, after consultation of the European Parliament, the attached Arrangement between the European Community and the Republic of Iceland, the Principality of Liechtenstein, the Kingdom of Norway and the Swiss Confederation on the participation by those States in the work of the committees which assist the European Commission in the exercise of its executive powers as regards the implementation, application and development of the Schengen *acquis*.
